Hi –

I apologize if I forgot, I didn't think there was a requirement to call ahead with them. If possible that would be great, but not a deal killer if this is too short a notice.

Thank you.

Should I get in touch with Valley Asphalt to have someone meet us to get on their property?

Hi –

In a somewhat prioritized list - for sure we would like to see the “southern area” where the potential for waste at the surface exists. We would also want to see the Dryden Road area since that’s where current receptors are located, and to get an idea of the current VIMS locations. Then Valley Asphalt, and then the pond and the flood plain. So pretty much everything, but if we need to prioritize I recommend that list.

Hello Leslie

Please let me know if there are particular aspects/buildings of the South Dayton Dump Site that you plan to visit tomorrow. Greg wants to ensure he has the proper equipment/access for your tour.

Thank you,
Valerie
